Allowable Subject Matter

1. Claims 1-13, and 15-20 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art does not teach or suggest a hollow U-shaped bicycle rim including reinforcing members bonded to the exterior surface of a spoke attachment portion of the rim, wherein the reinforcing members include internally threaded bores for directly attaching the spokes to the rim, and the interior surface of the spoke attachment portion of the rim being free from contact with the reinforcing members.

The Terry reference (and many similar references) shows a rim that includes a space located above rim reinforcing members to allow a spoke nipple and attached spoke to move in the radial direction in response to forces on the wheel. Therefore, spokes would not be able to be threaded directly to the reinforcing member of Terry (and similar references), since this would prevent the free cushioning movement of the spokes, thus possibly damaging various components of the wheel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jason R. Bellinger whose telephone number is 571-272-6680. The examiner can normally be reached on Mon - Thurs (9:00-4:00).
